featuring ESSEC Faculty speakers\***

*While many researchers at ESSEC are currently or have recently been working on Gender issues, there has not been an occasion to gather and discuss with all the colleagues involved. Now is the occasion!*

**When:** March 6<sup>th</sup> 2018 – a first opportunity to share expertise and ideas, get to know who does what, and explore new research ideas. We intend to continue with further workshops and a possible collaboration with the CoBS (Council on Business & Society) partner school faculty.

**How:** A short presentation by each colleague (5 minutes), then debate between the panel, the attendees (professors, students and staff) and external guests via YouTube live.

\*some colleagues will not be available for this event. We count on them for further sessions on the issue.
